AI-Creations.net Usage License

PERSONAL USE & COMMERCIAL USE | Version 1.0 | Effective 16 October 2026

1. Scope and license selection

These terms apply to digital AI-generated images and image sets (the “Images”) supplied by AI-Creations.net (the “Licensor”). The license type stated on the product page, order confirmation, invoice, or other written purchase record determines whether the customer (the “Licensee”) receives a Personal Use License or a Commercial Use License. Purchasing one license type does not grant the rights of the other.

Both license types are royalty-free, worldwide, non-exclusive, non-transferable, and perpetual, subject to compliance with these terms. “Royalty-free” means that no recurring usage royalties are owed for uses permitted by the purchased license; it does not mean the Images are free of charge.

2. Personal Use License

The Personal Use License is strictly limited to private use by the individual Licensee.

Permitted use

- View, download, store, and privately enjoy the Images for personal use, including on personal devices and in a private home.
- Use the Images as references to make derivatives solely for private, personal use, provided neither the derivatives nor the original Images are published, shared, distributed, or used commercially.

Not permitted

- No publication or public display, including on websites, blogs, social media, public profiles, online galleries, portfolios, or publicly accessible platforms.
- No commercial, business, promotional, or monetized use of any kind.
- No sharing, forwarding, gifting, distribution, resale, sublicensing, transfer, or making files accessible to third parties, whether free of charge or for payment.
- No use of the Images as references or source material for derivatives intended for publication, distribution, or commercial exploitation.

3. Commercial Use License

The Commercial Use License permits the Licensee to incorporate the Images into their own finished creative, editorial, promotional, or commercial projects, subject to the restrictions below.

Permitted use

- Digital use: websites, blogs, online shops, online publications, social media, digital advertisements, promotional materials, and other digital end uses.
- Print use: printed publications, brochures, posters, packaging, advertising, and other printed materials.
- Physical products: integration of the Images into finished physical merchandise or products offered for sale, such as prints, apparel, stationery, or similar goods.

- Reasonable technical preparation necessary for these permitted uses, such as resizing, cropping, formatting, and placing an Image within a layout or finished product.

Not permitted

- No resale or redistribution of the original Images as standalone digital products or files, including image packs, stock-image collections, downloads, templates providing extractable source images, or substantially unchanged digital copies.
- No sharing, transferring, gifting, distributing, or sublicensing the original image files to third parties. Limited access by a contracted service provider solely to produce an authorized end product on the Licensee's behalf is allowed only where the provider is bound to confidentiality, may not reuse or retain the Images beyond fulfillment, and receives no independent license.
- No use of the Images as visual references or source material to create derivative images intended for publication, distribution, sale, or other public or commercial use.
- No claiming ownership of the original source files or granting third parties a separate license to use them.

4. General conditions applicable to both licenses

- No transfer of ownership: the sale grants only the usage rights expressly stated here; it does not assign copyright or any other intellectual-property rights that may exist.
- Third-party rights: the Licensee is responsible for obtaining any additional permissions required for identifiable people, customer-provided references, trademarks, property, or other protected material used in the relevant project. The license cannot grant rights the Licensor does not possess.
- Lawful use: no use that violates applicable law or infringes the rights of others.
- Licensee responsibility: the Licensee must ensure that third-party production or hosting arrangements do not lead to unauthorized independent use or redistribution of source files.
- No exclusivity: unless separately agreed in writing, the Licensor may license similar or identical Images to other customers.

5. Duration, breach and termination

The license has no expiry date and does not require renewals or recurring royalties. It remains valid indefinitely while the Licensee complies with these terms. In the event of a material breach, the Licensor may terminate the license by written notice if the breach is not remedied within 14 days after notice, where remediation is possible. Upon termination, the Licensee must stop further use and distribution and delete retained source files, except where applicable law requires retention. Rights already granted to end customers in lawfully sold, finished physical products are not retroactively withdrawn.

6. Other terms

Any additional permissions, including redistribution, sublicensing, exclusivity, or broader derivative rights, require separate written authorization from AI-Creations.net. If any provision is unenforceable, the remaining provisions continue to apply to the extent permitted by law. Mandatory statutory rights remain unaffected.

Questions or requests for additional permissions: info@ai-creations.net | AI-Creations.net
